Working Conditions

- Ambient temperature: $-5^{\circ}\text{C} \sim +40^{\circ}\text{C}$, the daily average temperature $\leq 35^{\circ}\text{C}$
- Altitude: ≤ 2000 m
- Humidity: Maximum temperature is $+40^{\circ}\text{C}$, air relative humidity of not more than 50%, at a lower temperature allows a higher relative humidity. For example, 20°C , when up to 90%, and occasionally due to temperature changes resulting from Gel should take special measures
- Pollution Level: 3
- Installation Type: III
- Installation position: should be installed in the absence of a significant shake and shock and vibration place
